Writing Test [L1, L2]

Read the following passage.

When the Queen was a kitten, she used to stay outside for hours. Sometimes, she even stayed out overnight. One time, last summer, she disappeared for three whole days. When she came back, part of her left ear was missing. If the outside of your ear is damaged, does that mean the inside of your ear doesn't work?

Last night, Liam started thinking-if both Mr. Cunningham and the Queen are always grouchy and shouting, well meowing in the Queen's case, maybe she can't hear very well either. So, Liam decided to test her. He got out the electric can opener and a can of tuna-her favorite treat. It makes a lot of noise, like a dentist's drill. He turned on the can opener and it made a loud VRRRRRR sound, but she kept on snoring. She didn't hear the can opener grinding at all.

It must be true then! The Queen can't hear, just like Mr. Cunningham.

Use these questions to help you summarize the paragraph.

1. What was Liam testing?
